## Conflict Minerals Position Statement

Dear Valued Customer,

Index Sensors & Controls is committed to sourcing responsibly and considers mining activities that fuel conflict as unacceptable. Index Sensors & Controls' efforts comply with the work of the Conflict-Free Sourcing Initiative (CFSI). The CFSI's work includes the Conflict-Free Smelter Program and the Conflict Minerals Reporting Template.

Index Sensors & Controls' products are manufactured by purchasing and using parts that are supplied by other manufacturers, distributors, and suppliers. We trust that the information our suppliers provide us is true.
